RESPONSE TO NOTICE OF DRAWINGS INCONSISTENCY WITH SPECIFICATION

SIR:

This is in response to the Notice of Drawings Inconsistency with Specification mailed on May 5, 2006.

On December 5, 2005, Applicants submitted an Amendment with Annotated and Replacement Drawings. As requested by the Examiner, the Drawings were amended to reflect that Fig. 3 should be Figs. 3A-B and Fig. 4 should be Figs. 4A-B. The specification was amended to reflect the changes to the drawings. It is noted that in the current Notice, it states that "Figures 3A-B and 4A-B are listed in the Brief Description of the Drawings in the specification but not contained in the Drawings."

On April 11, 2006, Applicants submitted seven sheets of formal drawings for "the drawings submitted at the time of filing this application." This appears to be in error. Applicants request that the six Replacement Sheets of Drawings submitted on December 5, 2005 be the formal drawings for the present application and replace the seven sheets of drawing figures submitted on April 11, 2006.

A copy of the six Replacement Sheets of Drawings submitted on December 5, 2005 is enclosed.

Date: June 5, 2006

Respectfully submitted,

A handwritten signature in cursive script, appearing to read 'Shawn W. O'Dowd'.
